REPLY TO THE ATTENTION OF:

Mr. Andrew Hall  
Division of Air Pollution Control  
Ohio Environmental Protection Agency  
50 West Town Street, Suite 700  
P.O. Box 1049  
Columbus, Ohio 43216-1049

Dear Mr. Hall:

The U.S. Environmental Protection Agency has reviewed the draft Plantwide Applicability Limit (PAL) permit, permit number P0113354, for Honda Engineering North America, Inc., in Marysville, Ohio. To ensure that the source meets Clean Air Act requirements, that the permit will provide necessary information so that the basis of the permit decision is transparent and readily accessible to the public, and that the permit record provides adequate support for the decision, EPA has the following comments.

1. Ohio Administrative Code (OAC) 3745-31-32 (A)(11)(f)(iii) requires that a facility using emission factors to monitor PAL pollutant emissions shall conduct validation testing to determine a site-specific emission factor within six months of PAL permit issuance unless the director determines testing to not be required. Also, OAC 3745-31-32 (A)(11)(i) requires that all data used to establish a PAL limit must be re-validated through performance testing or other scientifically valid means and that such testing must occur at least once every five years after issuance of the PAL. The draft permit makes use of an AP-42 emission factor on page 26, whereas doing emission testing to formulate a site-specific emission factor would give a better estimate of emissions. Please revise the permit so that it requires validation testing to determine site-specific emission factors to then be used to assure compliance with the emission limits, re-validated through performance testing at least once every five years, or explain why such emissions testing is not technically practicable.
2. The equation for emission from plastic molding includes a 3% factor. Please clarify the reason for this factor in the permit.

We appreciate the opportunity to provide comments on this draft permit. If you have any questions, please feel free to contact me or have your staff contact Kaushal Gupta, of my staff, at (312) 886-6803.

Sincerely,

A handwritten signature in cursive script, reading "Genevieve Damico". The signature is written in dark ink and is positioned above the printed name.
